Riyadh imposes anti-dumping measures on solar systems

Overview

We have received a number of inquiries regarding the implications of the new solar panels antidumping (AD) and countervailing duty (CVD) investigations.

Key Takeaways

The GCC Common Law on Antidumping, Countervailing. Anti-dumping measures:
Measures against dumping according to this Law and its Rules of Implementation. C.

Frequently Asked Questions

Will Antidumping Measures affect solar project development in the United States?

The return of antidumping measures for components sourced from Southeast Asia could have a significant impact on solar project development in the United States. Photo: Tobias Kleinlercher/Wikipedia From pv magazine 6/24 AD/CVD tariffs for US-imported solar components from Vietnam, Malaysia, Thailand, and Cambodia have been paused since 2022.

What are the anti-dumping and countervailing duties on solar panels?

The countervailing and anti-dumping duties are in response to a petition that a group of seven solar panel manufacturers called the American Alliance for Solar Manufacturing Trade Committee filed with the US government in April 2024.

What are US anti-dumping tariffs on solar panels?

In early December 2024, after a two-year investigation, the U.S. Department of Commerce announced preliminary anti-dumping tariffs ranging from zero percent to 271.3 percent on solar modules and cells imported from Cambodia, Malaysia, Thailand, and Vietnam (International Trade Center 2024).

Will China impose anti-dumping duties on solar panels?

In 2012, the U.S. Department of Commerce ruled that anti-dumping duties would be imposed on Chinese polysilicon, solar cells, and modules, with rates ranging from 18 percent to 249 percent.

Are crystalline solar cells affected by US anti-dumping duties?

The US Commerce Department set final countervailing and anti-dumping duty rates on Monday for crystalline solar cells and modules imported from four southeast Asian countries. Cells and modules from Vietnam, Malaysia, Thailand and Cambodia are affected. Importers have already been posting cash deposits for the duties since last fall.

Can the US expand the anti-dumping investigation in Southeast Asia?

Chinese solar manufacturers are able to circumvent anti-dumping duties against China by assembling solar modules in the Gulf and then exporting the modules to the United States. Yet, the United States may expand the anti-dumping investigation in Southeast Asia to the Gulf region once China's manufacturing in the Gulf expands rapidly.
